Yellow Fever

Scientists have at least discovered remedies and treatment that will cure most cases if taken in time.

However, they say whatever is done in case of yellow fever must be done promptly.

A good nurse, fresh air, cheerful surroundings, and absolute quiet are necessary.

A pure tonic stimulant, like Duffy's Pure Malt Whiskey, is imperatively required, from the outset, in the treatment of this disease.

In the early and middle stages Duffy's Pure Malt Whiskey may be given with more or less freedom, as the attending physician may deem best, but during the period of convalescence it should be administered only in small doses.

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain; thus all germs are destroyed, and the product is a predigested liquid food and is invaluable in all cases of low fever, such as typhoid, malaria, etc. It is also invaluable for overworked men, delicate women, and sickly children. It brings into action all the vital forces and builds up new tissues. It strengthens and sustains the system; is a promoter of health and longevity and keeps in normal healthy condition body, brain, and nerve. It is the greatest family medicine known to science and is used by leading doctors of all schools throughout the world.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water. It will ward off disease.

Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers, and dealers, or shipped direct for \$1.00 a large bottle.

If in need of advice, write Consulting Physician, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctors will send you advice free, together with a handsome illustrated medical booklet containing some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of the world's greatest medicine.

Honolulu Concert Orchestra. Music will be furnished by an orchestra composed of the following musicians: F. J. Vierra, conductor; first violins, Prof. Kahl, Messrs. Love, James and Bond; second violins, Messrs. Brown, McTighe and Dr. Moore; viol. Dr. Marques; cello, Dr. Straub; basses, Messrs. Williams and Kaai; first clarinet, Mr. Chadwick; second clarinet, Mr. Folsom; flute, Mr. Desky; oboe, Mr. Bechtel; first cornets, Messrs. Bolase and St. John; second cornet, Mr. Krauss; trombone, Mr. Kaai; timpano, Mr. Peck; piano, Mr. Falke.

The committee in charge of the Elks' memorial services at the Opera House would ask that the audience remain seated during the closing march on the program, while the officers of the Lodge are filing from the stage. This is a part of the exercises and in the past it has been much marred by misunderstanding on the part of the audience. The music is by the Honolulu Concert Orchestra and the closing selection is one of much beauty and should not be spoiled by the disturbance caused by persons leaving before it is concluded.

The ushers who have been appointed for the services tomorrow afternoon are as follows: Chas. R. Frazier, chairman; A. L. C. Atkinson, Arthur Berg, Clifford B. High, Geo. T. Kluegel, R. C. Lydecker, R. R. Reidford, W. J. Robinson, R. W. Shingie, B. H. Smith and Wm. Thompson. The committee requests that those members be on hand at the Opera House as soon after 2 o'clock as possible, in order to see to seating the large audience which is certain to attend.

Conscientious Druggist

About a year ago E. A. Rodgers, a druggist, wrote us from Callaway, Nebraska, that he had a serious case of kidney disease and that his physician did not offer him much encouragement. He desired to put Fulton's Renal Compound in stock for his own case and if he got results he would sell it to others. He wrote several times for advice, showing a very obstinate case. He now writes: "It is now ten months since I began using the compound, and although my case has been very obstinate, it seems to have finally yielded to the treatment. I have no doubt results would have been obtained sooner had I not kept at work." (Due to the results obtained in this case our agencies were promptly accepted in Callaway and the adjoining town.) Simply another case of kidney trouble in which the infamed kidneys refused to respond to the little old-time kidney exchanta and that after all else had failed, yielded to Fulton's Renal Compound, the first and only emollient for infamed kidneys. Inflammation of the kidneys, even in its advanced forms, is now curable. Send for literature.
